

In keeping with our mandate to continuously enhance our employee benefits, effective July 1, 2008, all permanent members of staff are eligible to register for a 100% Company subsidised Medicard.

Your Medicard provides **discounts for medical and health care services across Trinidad and Tobago**. Medicard Limited cardholders and their dependents have immediate access to cost effective services no matter their age or nationality.

The discount service also includes the products and services that most people use in their day to day lifestyles: pharmacies, restaurants, car rentals, supermarkets, furniture and appliances, shoes and clothing and much more as the company continues to grow. To name a few providers: Bhagan's Drugs, Kappa Drugs, Medical Associates Hospital, R.I.K. Services, Tru Valu Supermarkets and Standard Distributors.

They offer a simple no nonsense solution for all cardholders - present your card, get your discount - that's it! This card adds a new dimension to your spending habits and put additional advantages in your hand as a consumer.

Also, dependents are not limited to spouse (common law / registered) and children under the age of 23 years, but are extended to include parents and other exceptions where the employee is deemed the financial caregiver.

All supervisors are asked to submit permanent employees' names and dependents (spouse, children and parents if desired) once an employee has been confirmed.

You can check out the Medicard website at: <http://www.medicardlimited.com> for further details
